

## Geography

The world is made up of 7 large areas of land called continents - Europe, Asia, Africa, North America, South America, Australia and Antarctica.

The majority of the world is covered in water, including the Pacific, Atlantic, Arctic, Indian and Southern oceans.

The world's rainforests are located around its equator due to the warm, wet climate. The weather, habitats and animals in the rainforests are very different to the United Kingdom.

## Key values

The future of the rainforest is reliant on the kindness and caring nature of humans.

## Design and Technology

Mechanisms such as flaps, levers and concertina folds can be used to make objects in books move.

# Amazon Adventures

## Music

Sounds of the rainforest can be recreated using body percussion and instruments.

## Art and Design

Famous artist, Henri Rousseau created colourful paintings inspired by rainforest plants and animals.

## Key Vocabulary
